

## **ASCENDANT LIVING BLENDS 1 oz Dosage Level glass bottle**

Blends for focused spiritual growth and empowerment with the Ascended Masters and Illumined Beings of the Earth's Light Realms.

All blends in the Ascendant Living Blends collection have been co-created with new intricately woven frequencies through the Vortex Essences to support and unite individuals and groups in worldwide collaborations serving humanity's revelation, illumination, enlightenment and getting into their vortex. They are tested for reformulating each year and revised as required.

The first of these blends were distributed in 2002, to support specific world service groups and master channels. Beginning in 2005 these blends were expanded in scope and are now formulated directly in communion with each specific Ascended Master over a period of time, merging the unique qualities our Vortex Essences, and the gifts each master chooses to imbue into their own signature blend. They are retired when felt completed in serving to bridge the non-physical to the physical, with new ones inspired by the human trends and super conscious collective perceptions of needs to best serve.

During these next years of planetary and social restructuring, transfiguring alignments, soul integrations and new group connections the Light Realm Collaborations will assist in balancing and smoothing your transitions, empowering your choices and intentions and align you with your chosen ascended master guides and light realm pathways.

*These blends are to be taken under the tongue or in water for the most effective use.*
